

Honey bee health for the veterinarian: One-day workshop

June 1, 2019

9:00 am – 5:00 pm

Betterbee, 8 Meader Rd., Greenwich, New York

www.betterbee.com

Instructors:

Scott McArt, PhD, Assistant Professor of Pollinator Health, Cornell University

Robin Radcliffe, DVM, Senior Lecturer in Wildlife and Conservation Medicine, Cornell University

Rolfe Radcliffe, DVM, Lecturer in Large Animal Surgery and Emergency Critical Care, Cornell University

Chris Cripps, DVM, co-owner of Betterbee and co-organizer of the Honey Bee Veterinary Consortium

Topics to be covered:

- Introductory honey bee biology and disease management
- Common beekeeping terminology and how to conduct a hive inspection
- How to diagnose hive ailments and how to prescribe and apply medications if necessary

To join, email Paige Muñoz at pam287@cornell.edu with the subject "Bee vet workshop"

****The course will be capped at 24 people****

A \$40 course fee (paid the day of the course) will go towards lunch, printed materials, and a beekeeping veil for you to keep!
